I program in my free time and plan to make a side job out of it while pursuing a life in service to The Lord through the ministry.

EDUCATION

Planning of going to Boyce College, KY, for a Bachelor of Arts in Biblical and Theological Studies and a Master's in Divinity.
Classes to be started in 2026, degree to be obtained in 2031.

- Additionally pursuing Biblical Counseling Certification through the Association of Certified Biblical Counselors (ACBC)
- Self-taught to program in 7 different programming languages
- I have worked with computers & mobile devices since childhood

---

EXPERIENCE

Independent Programmer | Remote Work
2024 – Present

- Provided a variety of services, from debugging to scripting entire games
- Various platforms, including but not limited to, Roblox, Unity, website development, and Unreal Engine
- I manage my own online store to hire and pay staff, make and advertise products, and more

Notable Takeaways

- Learned through completing commission jobs the value of iteration and user feedback, additionally learned how to be adaptable to each consumer's needs by understanding their expectations beforehand.
- Through customer service, I learned the importance of patience and a detailed yet understanding explanation
- Learned the value of dedication when I ran out of motivation or grew tired of a project but still completed it to the best of my ability for the customer.
- Learned the value of leadership and how to evenly distribute workloads among my staff members and myself in a fair fashion.

Learned the utmost importance of clearly communicating and clarifying with a client to meet their expectations.

SKILLS

- In the process of learning Latin as a 3rd language
